The Xpert, a high performance datalogger \& communications device for unattended, remote, real-time data acquisition \& control, is a multitasking logger capable of making measurements \& transmitting multiple communications simultaneously. Xpert's Graphical User Interface (GUI) \& removable memory make Xpert a perfect option for those needing easy-touse touchscreen navigation \& programming plus the ability to transfer data via SD card or USB devices.

## Simple

Extremely easy to use.

## Flexible

Retrieve data using any communication interface, USB or SD
memory cards.

## Easy set-up

No programming background or experience necessary.
